About

I am Shivam Katare from India. I am a 3rd-year College student at APS University. I am interested in **Web Development** and recently started to learn UI design with Figma and understand the concepts of DevOps and looking forward to learning more new things.

I have knowledge of HTML/CSS/JS/Bootstrap/Python/React/DS/Github and more than a little bit of knowledge of JAVA.

Always eager to experiment with new things and excited to try them out. I love to ****gain ****and **share** knowledge with others.
